

Thir-O-sec

Absorbent particles for dry repair TOS600

The Thir-O-Sec is a product in powder form which can absorb harmful water very quickly and efficiently during working in particular on roofs. The present water immediately turns into a gel that can be removed using a broom and / or shovel. This product can also be used to form a barrier when flowing water makes work difficult. Thir-O-sec is safe for the environment and its packaging allows very easy handling.

Advantage

- Absorbs up to 200 times its weight
- Facilitates repair work
- Safe for the environment
- Easy to handle
- Instantly transforms water into gel
